

PRESCRIBED FORM WELLAND ON

To: The Council of the City of Welland
 c/o City Clerk
 60 East Main Street
 Welland, ON L3B 3X4

RECEIVED

AUG 28 2024

AUGUST 28th, 2024

I/We the undersigned, petition the Council of the City of Welland as follows: (max-1200 characters)

As residents of the Coyle Creek Park SWMP Community, we strongly oppose the implementation of the "buffer zone" around the perimeter of the pond. Previous experience by the residents with "buffer zones", from 2014 - 2016 demonstrated their ineffectiveness in controlling algae within the pond, as per the recommendations of the Ministry of Environment, and the reasons given. Further to this, the "buffer zone" encouraged the establishment of a colony of muskrats that destroyed the pond's embankments with their burrows and tunnels. The "buffer zone" also provided cover for ambush predators such as coyotes and fox, which discouraged water fowl from using the pond. Aesthetically, the "buffer zone" created an unsightly landscape of what was a well-manicured, park-like setting. The overgrown weeds provided an ideal habitat for ticks; thereby posing an unnecessary threat to residents and visitors to the Park via ticks and Lyme Disease. We seriously question the validity for installing said buffer zone and its' necessity, and ask that the City remove it and restore the "wetpond" setting immediately.
